RE: Docket Number T-02432B-07

Attached for filing please find an original and thirteen (13) copies of revisions to Sprint Communication Company L.P. (Sprint) Arizona Tariff C.C. No. 2.

This filing:

- Introduces several new prepaid phone cards,
- Continues our standardization efforts by moving cards which are no longer offered to the No Longer Offered list,
- Removes Hospitality Connection, Hospitality Connection Plus and Hospitality Connection 2000 services; these services have no customers subscribing to them,
- Grandfathers Private Line services,
- Grandfathers the remaining Residential Toll Free options as the entire service is no longer offered to new customers. and
- Deletes other obsolete services that do not have any customers.

Sprint respectfully requests an effective date of January 17, 2008.

If you have any questions or need additional information regarding this filing, please call me.

Sincerely,

Martha Wilindez

4. SERVICE AND RATE DESCRIPTION (continued)4.2 Sprint WATS

Sprint WATS has the following options: Sprint ADVANCED WATS, Ultra WATS, Dial 1 WATS, Dial 1 WATS ADVANTAGE, and Wholesale Communications Services. (C)

When the subscriber orders the Sprint ADVANCED WATS option and obtains the required dedicated access facility, traffic originates and enters the network via this dedicated facility. Subscriber traffic traverses the network and terminates via shared off-network access lines. This configuration of service is restricted to one-way calling only (i.e., calls may be originated from but not terminated to the subscriber location via the dedicated access facility). If the subscriber requires both inward and outward service, the subscriber must order another service option in addition to or in place of this configuration.

Subscribers may originate Sprint ADVANCED WATS from the originating locations referenced in Section 2 and may terminate calls in all locations within the State of Arizona.

Dial 1 WATS subscribers enter the network via normal shared use Feature Group D circuits and terminate via normal shared use facilities. Dial 1 WATS is available at the locations described in Section 2 where equal access service is available and may terminate calls in all locations within the State of Arizona.

Ultra WATS calls are originated via dedicated facilities between the subscriber's premises and Sprint's POP in the originating city and are terminated via normal shared use facilities. Subscribers may originate Ultra WATS from the originated locations referenced to in Section 2 and may terminated calls in all locations within the State of Arizona.

Dial 1 WATS ADVANTAGE calls are originated in equal access areas via Feature Group D (FGD) connections and are terminated via normal shared use facilities. Service is available on a single or multi-locations basis. Subscribers receive a FÖNCARD ADVANTAGE calling card to place calls when away from their primary service location. Charges for Dial 1 WATS ADVANTAGE are based on duration of the call and rate period when the call originated. Dial 1 WATS ADVANTAGE and FÖNCARD ADVANTAGE usage is aggregated from all locations for purposes of applying volume discounts.

(Effective February 20, 1995, Sprint Advanced WATS will no longer be available to new subscribers.)  
(Effective June 15, 1995, Dial 1 WATS, Dial 1 WATS ADVANTAGE, and Ultra WATS will no longer be available to new subscribers.)

(D)

The per-minute rates set forth in Section 5.2 apply to Sprint ADVANCED WATS, Dial 1 WATS, Ultra WATS, and Dial 1 WATS ADVANTAGE, are billed according to the total monthly usage within each service group for each rate period. The rate charged is determined by the time of day when the call originates at the Sprint WATS originating location.

(C)

Directory Assistance, FÖNCARD, and Operator Services are available to Sprint WATS subscribers. Rates for these services are set forth in Section 5.5.

Discounts may apply to intrastate usage as set forth in Sprint's Business Schedule located at [www.sprint.com/ratesandconditions](http://www.sprint.com/ratesandconditions).

4. SERVICE AND RATE DESCRIPTION (continued)4.3 PRIVATE LINE Service #

(C)

Private Line Service is available between the LATAs referenced in Section 2. Two services are currently available under Private Line Service: Monthly Leased Line Service, Clearline Services, which include Clearline 1.5, Clearline Digital Data Services, Clearline Voiceband, Clearline Fractional 1.5 and Clearline 45 Service.

Monthly Leased Line Service provides dedicated circuits which connect distant locations on the Carrier's network. This is a non-switched point-to-point service over fully dedicated lines at a fixed monthly rate. These facilities are offered in numerous configurations depending on the individual subscriber's needs. These circuits are dedicated to a subscriber for his exclusive use 24 hours per day. Facilities are offered to meet the particular transmission needs of the subscriber.

Clearline Services:

Clearline 1.5 Service is a non-switched point-to-point service offered by Sprint between POPs on its fiber optic network. The Clearline 1.5 Service is offered in the form of discrete intercity communication facilities which are dedicated to the use of a specific subscriber and provides simultaneous transmission of digital signals at a speed of 1.544 mbps. Access from the subscriber premises to Carrier's fiber optic network is via a T-1 access line which provides a direct digital transmission connection at 1.544 mbps, or the equivalent of twenty-four (24) voice channels. Charges for Clearline 1.5 Service are based on the distance between the Carrier's POPs and local access arrangements.

Clearline Digital Data Services (DDS) provide for simultaneous, two-way digital transmission at synchronous speeds of 2.4, 4.8, 9.6 and 56/64 Kbps. The performance user can anticipate. Point-to-point and point-to-multipoint service is available.

# Effective January 17, 2008, Private Line Services will no longer be available to new customers. Existing customer's term plans may be renewed by Sprint at the end of the customer's term.

4. SERVICE AND RATE DESCRIPTION (continued)4.3 PRIVATE LINE Service# (continued)

(C)

Clearline Service: (continued)

Clearline Voiceband provides a dedicated point-to-point or point-to-multi-point circuit which will transmit digitized voice grade signals through Sprint's fiber optic network. Data communications may be transmitted with the use of modems. Service performance objectives between Sprint's Points of Presence are:

<u>Airline Miles</u>	<u>% Availability</u>	<u>% Error Free Seconds</u>
0 - 250 Miles	99.97%	99.96%
251 - 1,000 Miles	99.95%	99.93%
1,001+ Miles	99.93%	99.90%

Clearline Fractional 1.5 allows users to select fractions of a Clearline 1.5 circuit in increments of 56 or 64 Kbps digital channels for transmission between two locations. The performance objectives for Clearline Fractional 1.5 private line service from subscriber's premises to subscriber's premises are as follows:

<u>Airline Miles</u>	<u>% Availability</u>	<u>% Error Free Seconds</u>
0 - 250 Miles	99.87%	99.80%
251 - 1,000 Miles	99.85%	99.77%
1,001+ Miles	99.83%	99.75%

Local Access Facilities may limit the performance specifications that the end user can anticipate. Clearline Fractional 1.5 service is available on a month-to-month or yearly term plan basis.

Clearline 45 Service is a high speed digital transmission service at speeds of 45 Mbps.

Rates for Private Line Services are set forth in Rate Schedule 3.

# Effective January 17, 2008, Private Line Services will no longer be available to new customers. Existing customer's term plans may be renewed by Sprint at the end of the customer's term.

4. SERVICE AND RATE DESCRIPTION (continued)4.5 Miscellaneous Services (continued).18 Residential Toll Free (RTF)#

(C)

Residential Toll Free is an inward calling service for residential customers. Calls terminate over the subscriber's residential phone line. RTF is available to all Sprint residential customers. Customers subscribing to RTF may not need to change phone numbers or add additional lines in order to obtain the service. No installation charge is required.

Customers can obtain RTF as either: 1) a component of a customer's underlying service with service-specific rates or 2) as an add-on miscellaneous service. Unless otherwise noted herein, Sprint's Residential Toll Free services are available as well on a standalone basis.

Unless otherwise specified in this tariff, RTF rates are composed of usage charges and a monthly recurring charge.

New customers subscribing to RTF will be given a four digit personal identification number (PIN) to be used in conjunction with their toll free number. After dialing the customer's toll free a caller will be prompted to dial the PIN before the call can be completed.

The PIN functionality will apply unless: 1) a customer orders RTF in an area which presently does not have toll free plus PIN billing or 2) RFT plus PIN functionality is not available with the RTF service the customer is ordering. An additional monthly recurring charge is not applicable.

Customers are able to subscribe to RTF without the PIN dialing requirement if: 1) the customer requests their own personal number and Sprint can provide the number or 2) the customer does not want users of their toll free number to be required to dial a PIN. An additional monthly recurring charge is applicable.

The PIN monthly recurring charge applies in addition to the monthly recurring charge associated with the customer's underlying residential toll free service.

# Effective January 17, 2008, Residential Toll Free (RTF) is no longer available to new customers.

.4 Clear Channel Capability

Clear Channel Capability provides customers the use of the full 64 Kbps per DS-0 channel and allows DS-0 and DS-1 transmissions with more than 15 consecutive zeros. Clear Channel Capability is supported for:

Clearline 1.5 (DS-1)

Clearline DDS 64

Clearline Fractional 1.5 (N X 64 Kbps)

Clear Channel Capability is supported only by the use of the Bipolar with Eight Zero Substitution (B8ZS) coding technique. Clear Channel Capability requires T-1 local access lines with B8ZS line coding. Customer premises equipment must also be B8ZS-compatible.

.2 Clearline Services (Continued).3 Clearline Voiceband

Clearline Voiceband is available on a monthly basis as well as one through five year commitment terms.

.1 Base Interexchange Charges

The charge for this portion of Clearline Voiceband is for transportation of traffic between Carrier's POPs. Charges are based on airline mileage as calculated using the formula presented in Section 4.3. Each Clearline Voiceband circuit connected between two subscriber interface points will be construed as an individual circuit for rate compilation purposes. To calculate the charge for a Voiceband circuit, add the fixed charge plus the charge per mile times the total number of V&H miles.
